
(a) 20-week CD4 count
$\widehat{K}_0^U/n$ = 212/1,054 = 20.1%
normalized rank of age
normalized rank of baseline CD4
(b) change in CD4 count from baseline
$\widehat{K}_0^U/n$ = 265/1,054 = 25.1%
normalized rank of age
normalized rank of baseline CD4
